CONSOLIDATED FINANCIAL STATEMENTS AND  
REVIEW REPORT OF INDEPENDENT  
ACCOUNTANTS  
MARCH 31, 2019 AND 2018**

---

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

## REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

(19) PWCR19000293

To the Board of Directors and Shareholders of Chenbro Micom Co., Ltd.

### ***Introduction***

We have reviewed the accompanying consolidated balance sheets of Chenbro Micom Co., Ltd. and subsidiaries (the “Group”) as at March 31, 2019 and 2018, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the three-month periods then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

### ***Scope of Review***

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65 “Review of Financial Information Performed by the Independent Auditor of the Entity” in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### ***Basis for Qualified Conclusion***

As explained in Note 4(3), we did not review the financial statements of certain insignificant consolidated subsidiaries, which statements reflect total assets of NT\$322,427 thousand and NT\$382,173 thousand, constituting 5% and 7% of the consolidated total assets, and total liabilities of NT\$143,125 thousand and NT\$143,573 thousand, both constituting 6% of the consolidated total liabilities as at March 31, 2019 and 2018, respectively, and total comprehensive loss of NT\$192 thousand and NT\$2,547 thousand, constituting 0% and (3%) of the consolidated total comprehensive income for the three-month periods then ended, respectively.

### ***Qualified Conclusion***

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries been reviewed by independent accountants, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2019 and 2018, and of its consolidated financial performance and its consolidated cash flows for the three-month periods then ended in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

CHENBRO MICOM CO., LTD. AND SUBSIDIARIES  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
THREE MONTHS ENDED MARCH 31, 2019 AND 2018

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

(REVIEWED, NOT AUDITED)

**1. HISTORY AND ORGANISATION**

Chenbro Micom Co., Ltd. was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) in December 1983. The Company and its subsidiaries (collectively referred herein as the “Group”) are primarily engaged in computer software design, export and import of computer products and peripherals, and design, manufacturing, processing and trading of computer peripherals and system of expendables.

**2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION**

These consolidated financial statements were reported to the Board of Directors on May 14, 2019.

**3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS**

**(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) as endorsed by the Financial Supervisory Commission (“FSC”)**

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 9, ‘Prepayment features with negative compensation’	January 1, 2019
IFRS 16, ‘Leases’	January 1, 2019
Amendments to IAS 19, ‘Plan amendment, curtailment or settlement’	January 1, 2019
Amendments to IAS 28, ‘Long-term interests in associates and joint ventures’	January 1, 2019
IFRIC 23, ‘Uncertainty over income tax treatments’	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for IFRS 16, ‘Leases’, the above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

A. IFRS 16, ‘Leases’, replaces IAS 17, ‘Leases’ and related interpretations and SICs. The standard requires lessees to recognise a ‘right-of-use asset’ and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

- B. The Group has elected to apply IFRS 16 by not restating the comparative information (referred herein as the ‘modified retrospective approach’) when applying “IFRSs” effective in 2019 as endorsed by the FSC. Accordingly, the Group increased ‘right-of-use asset’ and ‘lease liability’ by \$65,033 and \$8,413 respectively, and decreased other non-current assets by \$56,620 with respect to the lease contracts of lessees on January 1, 2019.
- C. The Group has used the following practical expedients permitted by the standard at the date of initial application of IFRS 16:
- (a) Reassessment as to whether a contract is, or contains, a lease is not required, instead, the application of IFRS 16 depends on whether or not the contracts were previously identified as leases applying IAS 17 and IFRIC 4.
  - (b) The use of a single discount rate to a portfolio of leases with reasonably similar characteristics.
  - (c) The accounting for operating leases whose period will end before December 31, 2019 as short-term leases and accordingly, rent expense of \$414 was recognised in the first quarter of 2019.
- D. The Group calculated the present value of lease liabilities by using incremental borrowing interest rate ranging from 2.62% to 6.00%.
- E. The Group recognised lease liabilities which had previously been classified as ‘operating leases’ under the principles of IAS 17, ‘Leases’. The reconciliation between operating lease commitments under IAS 17 measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate and lease liabilities recognised as of January 1, 2019 is as follows:

Operating lease commitments disclosed by applying IAS 17 as at December 31, 2018	\$	11,320
Less: Short-term leases	(	<u>2,488)</u>
Total lease contracts amount recognised as lease liabilities by applying IFRS 16 on January 1, 2019		8,832
Incremental borrowing interest rate at the date of initial application		<u>2.62%~6.00%</u>
Lease liabilities recognised as at January 1, 2019 by applying IFRS 16	\$	<u><u>8,413</u></u>

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

None.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 1 and IAS 8, ‘Disclosure Initiative-Definition of Material’	January 1, 2020
Amendments to IFRS 3, ‘Definition of a business’	January 1, 2020
Amendments to IFRS 10 and IAS 28, ‘Sale or contribution of assets between an investor and its associate or joint venture’	To be determined by International Accounting Standards Board
IFRS 17, ‘Insurance contracts’	January 1, 2021

The above standards and interpretations have no significant impact to the Group’s financial condition and operating results based on the Group’s assessment.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

##### (1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and the International Accounting Standard 34, ‘Interim financial reporting’ as endorsed by the FSC.

##### (2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets at fair value through other comprehensive income.
- (b) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

##### (3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group’s consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed,

or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

(b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated.

B. Subsidiaries included in the consolidated financial statements:

Note 1: The financial statements of the entity as of and for the three months ended March 31, 2019 and 2018 were not reviewed by the independent accountants as the entity did not meet the definition of a significant subsidiary.

Note 2: Certain insignificant subsidiaries were consolidated in the statements based on the subsidiaries' unreviewed financial statements. On March 31, 2019 and 2018, the insignificant subsidiaries have total assets in the amounts of \$322,427 and \$382,173, and total liabilities in the amounts of \$143,125 and \$143,573, respectively. For the three months ended March 31, 2019 and 2018, the amounts of comprehensive loss were \$192 and \$2,547, respectively.

Note 3: As resolved by the Board of Directors on January 19, 2017, Chenbro Micom (Shenzhen) Co., Ltd. and Chenbro Micom (Beijing) Co., Ltd. are under liquidation.

Note 4: On May 9, 2017, Chenbro Europe B. V. was dissolved under the resolution of the Board of Directors, and the liquidation was completed in March 2019.

Note 5: On May 9, 2017, the Board of Directors of Chenbro UK Limited resolved to be directly held by the Company. The equity transfer was completed and registered in August 2017. In addition, the Board of Directors resolved to reduce the capital in the amount of GBP 19,999 on August 7, 2018, and Chenbro UK Limited will be dissolved thereafter. The aforementioned reduction in capital was registered in October, 2018.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

#### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars., which is the Company's functional and the Group's presentation currency.

##### A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within 'other gains and losses'.

##### B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
  - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
  - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
  - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, if the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
- (a) Liabilities that are expected to be paid off within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value. The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established,

future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.

(9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(10) Impairment of financial assets

For financial assets at amortised cost including accounts receivable or contract assets that have a significant financing component, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(11) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred and the Company has not retained control of the financial asset.

(12) Inventories

Inventories are stated at the lower of cost and net realisable value. Inventories are recorded at standard cost and variances are allocated to inventories and cost of goods sold at the balance sheet date. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads allocated based on normal operating capacity. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	5~50 years
Machinery and equipment	3~12 years
Mold equipment	2~11 years
Computer communication equipment	3~10 years
Testing equipment	2~10 years
Transportation equipment	5 years
Office equipment	1~13 years
Other equipment	3~12 years

(14) Leasing arrangements (lessee) - right-of-use assets / lease liabilities

Effective 2019

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
- (a) Fixed payments, less any lease incentives receivable; and
  - (b) Variable lease payments that depend on an index or a rate.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
- (a) The amount of the initial measurement of lease liability;
  - (b) Any lease payments made at or before the commencement date; and
  - (c) Any initial direct costs incurred by the lessee.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(15) Operating leases

Prior to 2019

Payments made under an operating lease (net of any incentives received from the lessor) are recognised in profit or loss on a straight-line basis over the lease term.

(16) Intangible assets

A. Trademarks

Separately acquired trademarks are stated at historical cost. Trademarks have a finite useful life and are amortised on a straight-line basis over their estimated useful life of 10 years.

B. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 5 years.

(17) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets in which there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(19) Accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services.
- B. The short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(21) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(22) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expenses in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expenses when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date).
  - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
  - iii. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.
- C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expenses and liabilities, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising

on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

- D. Deferred tax assets are recognised only to the extent that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.
- F. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

#### (24) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

#### (25) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

#### (26) Revenue recognition

- A. The Group manufactures and sells computer cases and related products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has

accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

- B. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated sales discounts and allowances. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. No element of financing is deemed present as the sales are made with a credit term after the transfer of controls in 45 to 60 days, which is consistent with market practice.
- C. A receivable is recognised when the control of products is transferred as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements does not require management to make critical judgements in applying the Group's accounting policies. The management makes critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of March 31, 2019, the carrying amount of inventories was \$748,841.

## 6. DETAILS OF SIGNIFICANT ACCOUNTS

### (1) Cash and cash equivalents

	<u>March 31, 2019</u>	<u>December 31, 2018</u>	<u>March 31, 2018</u>
Petty cash and cash on hand	\$ 381	\$ 398	\$ 395
Demand deposits	78,987	112,672	12,432
Checking account deposits	190,644	189,884	84,834
Time deposits (including foreign currencies)	246,858	90,351	246,366
Foreign currency deposits	839,861	868,422	1,000,950
	<u>\$ 1,356,731</u>	<u>\$ 1,261,727</u>	<u>\$ 1,344,977</u>

A. The Group associates with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Group has reclassified cash and cash equivalents pledged to 'other current assets' and 'other non-current assets'. Details are provided in Note 8.

### (2) Financial assets at fair value through other comprehensive income

<u>Items</u>	<u>March 31, 2019</u>	<u>December 31, 2018</u>	<u>March 31, 2018</u>
Non-current items:			
Equity instruments			
Unlisted stocks	<u>\$ 28,458</u>	<u>\$ 25,389</u>	<u>\$ 31,625</u>

A. The Group has elected to classify stock investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$28,458, \$25,389 and \$31,625 as at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.

B. For the three months ended March 31, 2019 and 2018, the amount recognised in other comprehensive income in relation to the financial assets at fair value through other comprehensive income was both \$0.

### (3) Financial assets at amortised cost

<u>Items</u>	<u>March 31, 2019</u>	<u>December 31, 2018</u>	<u>March 31, 2018</u>
Current items:			
Capital guaranteed financial products	\$ 274,800	\$ 156,450	\$ -
Time deposits	113,100	-	99,506

C. As at March 31, 2019, December 31, 2018 and March 31, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Group's accounts receivable were \$1,202,617, \$1,649,113 and \$1,203,081, respectively.

D. Information relating to credit risk is provided in Note 12(2).

(5) Transfer of financial assets

The Group entered into a factoring agreement with banks to sell its accounts receivable. Under the agreement, the Group is not obligated to bear the default risk of the transferred accounts receivable, but is liable for the losses incurred on any business dispute. The Group does not have any continuing involvement in the transferred accounts receivable. The financial assets meet the condition of derecognition. The Group decreased the estimated amount of business dispute and derecognised the transferred accounts receivable. As of March 31, 2019, December 31, 2018 and March 31, 2018, the related information is as follows:

- B. Information about the property, plant and equipment that were pledged to others as collateral is provided in Note 8.
- C. The net difference from the transfers for this period resulted from the intangible assets of \$862 and transfers into 'prepayments'.

(8) Leasing arrangements - lessee

Effective 2019

- A. The Group leases various assets including land, office, warehouse, business vehicles, parking spaces, printers and landscaping, etc. Rental contracts are typically made for periods of 3 months to 5 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.
- B. Short-term leases with a lease term of 12 months or less pertain to parking spaces. Low-value assets pertain to printers and landscaping.

C. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>At March 31, 2019</u>	<u>Three months ended March 31, 2019</u>
	<u>Carrying amount</u>	<u>Depreciation charge</u>
Land	\$ 56,910	\$ 249
Buildings	3,927	609
Transportation equipment	3,514	408
	<u>\$ 64,351</u>	<u>\$ 1,266</u>

D. The Group has no additions to right-of-use assets for the three months ended March 31, 2019.

E. Information on profit or loss in relation to lease contracts is as follows:

	<u>Three months ended March 31, 2019</u>
<u>Items affecting profit or loss</u>	
Interest expense on lease liabilities	\$ 82
Expense on short-term lease contracts	1,348
Expense on leases of low-value assets	120
Expense on variable lease payments	771

F. For the first quarter of 2019, the Group's total cash outflow for leases was \$3,293 (of which \$972 represents payments of the principal of lease liabilities).

G. Variable lease payments

Some of the Group's lease contracts contain variable lease payment terms that are determined and recognised as expense based on the actual usage during the period.

H. Extension and termination options

In determining the lease term, the Group takes into consideration all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. The assessment of lease period is reviewed if a significant event occurs which affects the assessment.

(14) Pensions

A. Defined benefit plan

- (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.
- (b) For the aforementioned pension plan, the Group recognised pension costs of \$90 and \$140 for the three months ended March 31, 2019 and 2018, respectively.

- (c) Expected contributions to the defined benefit pension plan of the Group for the year ending December 31, 2020 amount to \$519.

**B. Defined contribution plan**

- (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) Other overseas companies have a defined contribution plan in accordance with the local regulations, and contributions to endowment insurance and pension reserve are based on employees’ salaries and wages. Other than the periodic contribution, the overseas companies have no further obligations.
- (c) The pension costs under the defined contribution pension plan of the Company for the three months ended March 31, 2019 and 2018 were \$2,161 and \$2,166, respectively.
- (d) The pension costs under the defined contribution pension plans of CHENBRO MICOM (USA) INCORPORATION, CHENBRO EUROPE B.V., Chenbro GmbH, Chenbro UK Limited, Chenbro Technology (Kunshan) Co., Ltd., ChenPower Information Technology (Shanghai) Co., Ltd., Dongguan Procace Electronic Co., Ltd. and CHENBRO MICOM (ShenZhen) Co., Ltd. for the three months ended March 31, 2019 and 2018 were \$10,641 and \$8,869, respectively.

**(15) Ordinary shares**

As of March 31, 2019, the Company’s authorised capital was \$1,500,000, consisting of 150 million shares of ordinary stock (including 1 million shares reserved for employee stock options), and the paid-in capital was \$1,197,260 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

**(16) Capital surplus**

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

**(17) Retained earnings**

- A. Under the Company’s Articles of Incorporation, the current year’s earnings, if any, shall first be used to pay all taxes and offset prior years’ operating losses and then 10% of the remaining

amount shall be set aside as legal reserve until the amount of legal reserve reaches total capital. The remaining shall take into account item D below for the related regulations of setting aside special reserve. The appropriation of the remaining earnings along with the unappropriated earnings of prior years depends on annual financial status and economic development and shall be proposed by the Board of Directors and approved by the shareholders.

- B. The Company's dividend policy is based on the current profit and consideration of the Company's growth in the future, capital budget plan and capital needs as well as consideration of shareholders' interest and long-term financial plan, etc. Earnings can be distributed to shareholders as cash dividends or stock dividends. Cash dividends shall account for at least 10% of the total dividends distributed. If cash dividends are lower than \$0.20 (in dollars) per share, stock dividends will be issued instead.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- (b) The amount of \$65,573 previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.
- E. On March 19, 2019, the Board of Directors proposed the appropriation of 2018 earnings, and on June 20, 2018, the shareholders during their meeting resolved the appropriation of 2017 earnings as follows:

	<u>Year ended December 31, 2018</u>		<u>Year ended December 31, 2017</u>

- A. According to the Articles of Incorporation of the Company, a ratio of profit of the current year distributable, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 6% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration and will be distributed in the form of stock or cash as resolved by the Board of Directors. Employees who are entitled to receive employees' compensation include employees of subsidiaries of the company meeting certain specific requirements. Related regulations were set by the Board of Directors. The distribution of employees' compensation and directors' and supervisors' remuneration should be reported to the stockholders. However, if the Company has accumulated deficit, the Company should cover accumulated losses first, then distribute employees' compensation and directors' and supervisors' remuneration proportionately as described above.
- B. For the three months ended March 31, 2019 and 2018, employees' compensation was accrued at \$17,012 and \$5,349, respectively; while directors' and supervisors' remuneration was accrued at \$5,004 and \$1,573, respectively. The aforementioned amounts were recognised in salary expenses.

## B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance.
- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

## C. Significant financial risks and degrees of financial risks

### (a) Market risk

#### Foreign exchange risk

- i. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The group companies are required to hedge their entire foreign exchange risk exposure with the Company treasury, and primarily hedge using natural hedge.

- iii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through other comprehensive income.
- ii. Shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other comprehensive income for the three months ended March 31, 2019 and 2018 would have increased/decreased by \$285 and \$316 as a result of gains or losses on equity investment

at fair value through other comprehensive income.

#### Cash flow and fair value interest rate risk

The Group's interest rate risk arises from short-term borrowings and long-term borrowings (including current portion). Borrowings issued at fixed rates expose the Group to fair value interest rate risk. The Group's borrowings are issued at fixed rates. During the three months ended March 31, 2019 and 2018, the Group's borrowings were denominated in the USD and NTD.

#### (b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows stated financial assets at amortised cost.
- ii. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors.
- iii. Individual risk limits are set based on internal or external factors in accordance with limits set by the supervisors of credit control. The utilisation of credit limits is regularly monitored.
- iv. If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- v. The Group adopts the assumption under IFRS 9, that is, the default occurs when the contract payments are past due over 360 days.
- vi. The Group classifies customer's accounts receivable in accordance with credit risk on trade. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.
- vii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As of March 31, 2019, December 31, 2018 and March 31, 2018, the loss allowance is as follows:

	Not past due	Up to 90 days past due	91 to 180 days past due	181 to 270 days past due
<u>March 31, 2019</u>				
Expected loss rate	0.00%-0.08%	0.00%-0.33%	0.00%-4.09%	0.05%-12.58%

Total book value	\$ 44	\$ 17,594	\$ 1,222,797
Loss allowance	\$ 27	\$ 15,467	\$ 19,716

viii. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	<u>2019</u>
At January 1	\$ 2,216
Provision for impairment	82
Effect of exchange rate changes	<u>32</u>
At March 31	<u>\$ 2,330</u>
	<u>2018</u>
At January 1	\$ 23,751
Provision for impairment	( 4,138)
Effect of exchange rate changes	<u>104</u>
At March 31	<u>\$ 19,717</u>

For the three months ended March 31, 2019 and 2018, provision for (reversal of) impairment of accounts receivable that arise from customer contracts is \$82 and (\$4,138), respectively.

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The analysis is as follows:

Non-derivative financial liabilities:

<u>March 31, 2019</u>	<u>Less than 1 year</u>	<u>Between 1 and 3 years</u>	<u>Between 3 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 61,799	\$ -	\$ -	\$ -
Accounts payable	1,401,446	-	-	-
Accounts payable - related party	6,835	-	-	-
Other payables	608,487	-	-	-
Lease liabilities	4,413	3,157	181	-
Other current liabilities	3,757	-	-	-
Long-term borrowings (including current portion)	12,106	24,212	24,212	115,005
Guarantee deposits received	440	183	-	-

Non-derivative financial liabilities:

<u>December 31, 2018</u>	<u>Less than 1 year</u>	<u>Between 1 and 3 years</u>	<u>Between 3 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 277,238	\$ -	\$ -	\$ -
Accounts payable	1,412,759	-	-	-
Accounts payable - related party	6,008	-	-	-
Other payables	639,544	-	-	-
Other current liabilities	3,756	-	-	-
Long-term borrowings (including current portion)	12,067	24,133	24,133	117,649
Guarantee deposits received	429	179	-	-

  

<u>March 31, 2018</u>	<u>Less than 1 year</u>	<u>Between 1 and 3 years</u>	<u>Between 3 and 5 years</u>	<u>Over 5 years</u>
Short-term borrowings	\$ 257,420	\$ -	\$ -	\$ -
Accounts payable	1,246,732	-	-	-
Accounts payable - related party	4,015	-	-	-
Other payables	527,209	-	-	-
Other current liabilities	2,973	-	-	-
Long-term borrowings (including current portion)	11,434	22,868	22,868	120,060
Guarantee deposits received	446	186	-	-

iii. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

B. The carrying amounts of the Group's financial assets not measured at fair value, including cash and cash equivalents, current financial assets at amortised cost, accounts receivable (including related parties), other receivables, guarantee deposits paid, short-term borrowings, accounts payable (including related parties), other payables, lease liabilities, long-term borrowings (including current portion) and guarantee deposits received, are approximate to their fair values.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(a) The related information of the nature of the assets and liabilities is as follows:

March 31, 2019	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Assets</b>				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income

<b>Assets</b>				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	\$ <u>          -</u>	\$ <u>          -</u>	\$ <u>25,389</u>	\$ <u>25,389</u>

March 31, 2018	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Assets</b>				
<u>Recurring fair value measurements</u>				
Financial assets at fair value through other comprehensive income				
Equity securities	\$ <u>          -</u>	\$ <u>          -</u>	\$ <u>31,625</u>	\$ <u>31,625</u>

(b) The methods and assumptions the Group used to measure fair value are as follows:

- i. The fair value of the Group's financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.
- ii. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

D. The following chart is the movement of Level 3 in the first quarter of 2019 and 2018:

	2019
	<u>Equity securities</u>
January 1	\$ 25,389
Acquired in the period	3,069
At March 31	<u>\$ 28,458</u>

  

	2018
	<u>Equity securities</u>
January 1	\$ -
IFRS 9 transfer adjustments	31,625
At March 31	<u>\$ 31,625</u>

E. For the three months ended March 31, 2019 and 2018, there was no transfer into or out from Level 3.

F. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

G. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	<u>Fair value at March 31, 2019</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship of inputs to fair value</u>
Non-derivative equity instrument:					
Unlisted shares	\$ 28,458	Market comparable companies	Price to book ratio multiple	1.51-5.53 (1.55)	The higher the multiple, the higher the fair value
			Discount for lack of marketability	20% (20%)	The higher the discount for lack of marketability, the lower the fair value

	<u>Fair value at December 31, 2018</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship of inputs to fair value</u>
Non-derivative equity instrument:					
Unlisted shares	\$ 25,389	Market comparable companies	Price to book ratio multiple	1.34-3.33 (1.50)	The higher the multiple, the higher the fair value
			Discount for lack of marketability	20% (20%)	The higher the discount for lack of marketability, the lower the fair value

	<u>Fair value at March 31, 2018</u>	<u>Valuation technique</u>	<u>Significant unobservable input</u>	<u>Range (weighted average)</u>	<u>Relationship of inputs to fair value</u>
Non-derivative equity instrument:					
Unlisted shares	\$ 31,625	Net asset	N/A	N/A	N/A

H. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

Note 1: The Company purchased raw materials of iron pieces from the Company's fourth-tier

subsidiary in Mainland China, Dongguan Procace Electronic Co., Ltd. through the third-tier subsidiary, PROCASE & MOREX Corporation for manufacturing computer cases.

Note 2: The Company provided development technology to ChenPower Information Technology (Shanghai) Co., Ltd., and charged the related royalties.

#### 14. OPERATING SEGMENT INFORMATION

##### (1) General information

Because each plant possesses similar economic characteristics, produces similar products under similar production process, uses the same machinery equipment, as well as the selling methods and customer categories are alike, the Company's and subsidiaries' chief operating decision-maker has assessed that the Company and its subsidiaries only has one reportable operating segment. Furthermore, the measurement basis for the Company is in agreement with the basis stated in the reports reviewed by the chief operating decision-maker.

##### (2) Information about segment profit or loss, assets and liabilities

The accounting policies of the operating segments are in agreement with the significant accounting policies summarised in Note 4. The Group's segment profit (loss) is measured with the operating income (loss), which is used as a basis for the Group in assessing the performance of the operating segments, the Company and subsidiaries have only one reportable operating segment, thus, the reportable information is in agreement with those in the consolidated financial statements.

##### (3) Reconciliation for segment income (loss)

The segment operating profit provided to the chief operating decision-maker is measured in a manner consistent with that used for the statement of comprehensive income. Amounts of total assets and total liabilities of segments are not provided to the chief operating decision-maker to make strategic decisions. There is no difference between the presentation of segment report and income statement and accordingly, no reconciliation is required to be disclosed.
